Sorel cement (also known as magnesia cement or magnesium oxychloride) is a non-hydraulic cement first produced by the French chemist Stanislas Sorel in 1867.. In fact, in 1855, before working with magnesium compounds, Stanislas Sorel first developed a two-component cement by mixing zinc oxide powder with a solution of zinc chloride. In a few minutes he obtained a dense material harder than ...

Sorel cement - Wikipedia

The thicknesses of graded coatings were 17.4, 27.1, 28.7, and 32.7 μm for current modes of 1.2 A, 1.2-0.6 A, 1.2-0.8 A, 1.2-1.0 A, respectively, as shown in Fig. 23b. The dense internal layer and the porous exterior layer with a discernible boundary were found in all coatings.

Tobacco addiction remains a substantial problem in the United States and worldwide. Of those individuals who have ever tried smoking, about one-third become daily smokers (USDHHS 1994, p. 67). Of those smokers who try to quit, less than 5 percent are successful at any one time (Centers for Disease Control and Prevention [CDC] 2002, 2004). Although not all smokers become nicotine dependent, the ...
