An all-terrain vehicle (ATV), also known as a light utility vehicle (LUV), a quad bike, or simply a quad, as defined by the American National Standards Institute (ANSI); is a vehicle that travels on low-pressure tires, with a seat that is straddled by the operator, along with handlebars for steering control. As the name implies, it is designed to handle a wider variety of terrain than most ...

All-terrain vehicle - Wikipedia

The lifetime of an ATV engine will depend largely upon how it is used, followed by the quality of the manufacturer for the parts of the ATV, and then upon the care that is taken to maintain it. An engine that is used at low speeds for very rough terrain will wear out more quickly than ATVs that are used at higher speeds on smooth terrain.
