After some playing around, and reviewing the article reference by @v-bacao-msft in this thread, I was able to get a simple filter going. Unfortunately, I need to filter by TravelDate < (targetDate - X days). The Excel connector doc is clear that only a few operations are allowed so I am most likely going to use a conditional statement action followed by filter array in my actual flow.

Solved: examples of how to enter a filter query for excel ...
