A few genres available in eBooks at Freebooksy include Science Fiction, Horror, Mystery/Thriller, Romance/Chick Lit, and Religion/Spirituality.

Sustainable Ecosystems Unit 1 And

Sustainability is the capacity to endure in a relatively ongoing way across various domains of life. In the 21st century, it refers generally to the capacity for Earth's biosphere and human civilization to co-exist. Sustainability has also been described as "meeting the needs of the present generation without compromising the ability of future generations to meet their needs" (Brundtland, 1987).

Sustainability - Wikipedia

A conventional idea of a sustainable fishery is that it is one that is harvested at a sustainable rate, where the fish population does not decline over time because of fishing practices.Sustainability in fisheries combines theoretical disciplines, such as the population dynamics of fisheries, with practical strategies, such as avoiding overfishing through techniques such as individual fishing ...

Sustainable fishery - Wikipedia

Reductions in GHG emissions intensity (emissions per unit product) from livestock can support reductions in absolute emissions, provided appropriate governance to limit total production is implemented at the same time (medium confidence). {5.5.1} Consumption of healthy and sustainable diets presents major opportunities for reducing GHG ...
