"The Martian" — a fascinating, easy and funny despite the horror the situation, the book. The story captures, read in one breath and leaves a pleasant aftertaste. I can recommend the novel "The Martian" to all fans of science fiction. The book is interested with a dynamic ending and i think many will like it.

Imagism was a movement in early-20th-century Anglo-American poetry that favored precision of imagery and clear, sharp language. It gave modernism its first start, and is considered to be the first organized modernist literary movement in the English language. Imagism is sometimes viewed as "a succession of creative moments" rather than a continuous or sustained period of development.

In this exploration, students design, evaluate, test, and suggest improvements for a container that will protect their precious payload: an egg.. The Classic "Egg-Drop" experiment has been a standard in science instruction for many years. Essentially, students are asked to construct some type of container that will keep a raw egg from cracking when dropped from ever-increasing elevations.
